

Welcome to the 26th newsletter from the  
HUGHENDEN PARISH NAG.

The Neighbourhood priorities have been set following the completion  
of the Consultation period, they are:-

1) SPEEDING. 2) LITTER. 3) ANTI-SOCIAL BEHAVIOUR

### *Hughenden Neighbourhood. February 2012*

Hello from the **Hughenden**, Hazlemere & Chepping Wycombe Neighbourhood Police Team (HNPT) and welcome to the this edition of the Newsletter for the **HUGHENDEN PARISH.**

If you need to contact the Neighbourhood Team then please dial Thames Valley Police on the **NEW** non-emergency number, **101**, and ask the police operator to put you through to the Hazlemere Police Office or e-mail us. [lee.turnham@thamesvalley.pnn.police.uk](mailto:lee.turnham@thamesvalley.pnn.police.uk) [daton.beckford@thamesvalley.pnn.police.uk](mailto:daton.beckford@thamesvalley.pnn.police.uk)

The team would also love to hear from the community regarding any positive or negative feedback that you may have or any issues or concerns that you may wish to raise.

#### **SPEEDING:**

There was no Community Speed Watch for January. This was due to uncertain duties of the PcsO. However this has been resolved and the following dates have been booked;

Naphill;	Afternoon of 01 <sup>st</sup> February 2012
Hughenden Valley;	Morning of 03 <sup>rd</sup> February 2012
Widmer End;	Morning of 14 <sup>th</sup> February 2012
Great Kingshill;	Afternoon of 21 <sup>st</sup> February 2012

The locations and times are yet to be established but each ward will have at least 1 SID deployment over the period. If you are interested in seeing how the device works or you are interested in becoming involved in the process, please contact Daton Beckford or Lee Turnham at the above address or e-mail. We will then be able to inform you of the location and time that is appropriate to your ward.

The registered keepers of the vehicles will receive letters under the Community Speed Watch Scheme.

Please bear in mind that persons who receive Speed Watch letters are NOT given the speed that initiated the letter. There is a threshold which is strictly adhered to. When the device is activated the initial speed is the speed recorded by the operators and not the speed as the vehicle passes the device. The speed captured is that of at least 70 metres prior to the device.
